ANURAG YADAV

Linux Enthusiast — Aspiring AI/ML Developer — VIT Bhopal Student
Email — GitHub — LinkedIn

PROFILE

Dedicated student currently pursuing a B.Tech at VIT Bhopal. Passionate about building efficient, user-centric applications with a strong foundation in Python and C++. Expert-level interest in Linux systems (Arch/Ubuntu) and preparing for GATE to master core Computer Science principles.

EDUCATION

VIT Bhopal University 2024 – 2028
B.Tech in Computer Science Bhopal, MP
Current second-year student focusing on AI/ML and Data Science.

Delhi Public School (DPS) Risali 2010 – 2024
Schooling (Primary to Higher Secondary) Bhilai, CG

TECHNICAL SKILLS

- **Programming:** C++, Python, Java, HTML
- **Operating Systems:** Linux (Arch, Ubuntu, Omarchy)
- **Tools:** Git, GitHub, Tkinter (GUI Development)
- **Core Interests:** Machine Learning, DSA, PC Hardware

FEATURED PROJECTS

Secret Encoding/Decoding Utility *Python, Tkinter*
Developed a GUI-based application for secure text transformation, managing the project lifecycle via GitHub.

System Dotfiles & Optimization *Bash, Linux*
Architected a custom development environment on Arch Linux using automated Bash scripts for toolchain setup.

ASPIRATIONS

- **Academic:** Cracking GATE 2028 with a deep understanding of core engineering.
- **Career:** Transitioning into professional AI/ML development and Data Science.
- **Personal:** Contributing to open-source Linux communities and hardware innovation.
